Dear colleague,

This is an offer to Subscribe to this newsletter. To assess its value to you please download the Print and Screen example 2004-2017 issues from the www.haztech.com.au website. Or download a copy of the previous Oct-Nov-Dec 2019 issue (the [print](#) or [screen](#) format), from the webpage.

To subscribe, please complete the Tax Invoice on page 2 for a subscription to Hazmat & Environment Notes from Oct-Nov-Dec 2020 (current issue) to Aug-Sept-Oct 2021 (finishing issue).

An extra complimentary Aug-Sept-Oct 2020 previous issue can be sent once you have subscribed, (on email request from you).

My Notes help subscribers to meet obligations to keep current & demonstrate this to their management, customers & auditors. As a technical specialist editor, I minimise their time, finding & reading the information being generated about chemical management issues. “Hazmat & Environment Notes” is an inexpensive double check source of information, so that important issues & resources aren’t overlooked.

In particular, I closely follow chemical regulatory changes in Australia and New Zealand for domestic, industrial, agricultural and food chemicals (but not veterinary nor therapeutic chemicals), and I keep alert to relevant overseas regulatory changes we need to be aware of. I ALSO look for information that I see as useful to Classify chemicals correctly, prepare Safety Data Sheets, carry out Risk Assessments, to Train, to Network, to implement Cleaner Production, and to move towards a Sustainable Industry.

I encourage everyone to be involved, as we must network together with our limited resources we have available in our area, in order to appropriately manage chemicals and their effects.

Please return a copy of the tax invoice renewal form with a Credit Card authorisation, EFT payment, or AU\$ Cheque (if a Cheque is your only option), for the amount appropriate for your subscription.

Please keep a copy of your completed **tax invoice** for your records.
