

AICIS Listed Introduction Written Undertaking for the Products Identified with Confidential Ingredients

Company Name:	
Company Number:	“Preferably the AICIS Business Number. Plus in Australia, the ABN or ACN. In another country. the Regulated Company/Business Number.”
Company Address:	

herein referred to as “the Company”.

The following is required to be completed for products with ingredients where a CAS Registry Number is not assigned or if the chemical identity is not disclosed to the “Business importing into Australia” by the Company.

1. This confirms that each industrial chemical is listed on the Australian Inventory of Industrial Chemicals (AIIC), and the Company will notify the “Business importing into Australia” of whether the terms of the Inventory listing for a chemical include a:
 - a. defined scope of assessment
 - b. conditions relating to its introduction or use
 - c. specific information requirement
2. This confirms that the Proper Name (CAS name or IUPAC name) and CAS number (if assigned) of each industrial chemical will be **provided to the Executive Director of AICIS on request**, within 40 working days after the request is made, whether the request is made from AICIS or the “Business importing into Australia”.

The products to which this relates are the **products supplied into Australia through the “Business importing into Australia”, as listed in the Annex following.**

Authorized representative on behalf of the Company:

Name:	
Title:	
Email:	
Signature:	
Date:	

Note: The named Company’s provision of information for each industrial chemical included in an AICIS Written Undertaking request to named Company, is subject to satisfactory AICIS security processes and requirements and consequences being provided in writing to the named Company for the information to be provided under the Written Undertaking request.

Annex (as needed): with the List of Products that the Written Undertaking covers.

IF supplying a specific or entire Product Range, please adjust the above document to cover that Range.
