Member (1984-2017), Aerospace Occupational Safety & Health Association (AEROSHA)
Member, UK Society of Chemical Industry (since 1992)
Member (until June 2017) Chemistry Australia (formerly Plastics and Chemical Industries Association)
Member, Australian Dangerous Goods Air Transport Council

Industries Consulted To:

Chemical Trading / Importing, Chemical Storage & Warehousing, Manufacturing Industry (main areas),
Previous Areas: Electroplating, Metal Fabrication, Composites Fabrication, Chemical & Process Industries,
Painting and Finishing, Aircraft Industry, Laboratories, Transport of Dangerous Goods, Swimming Pool Centre
Chemical Handling, University Campus Chemical and Laboratory Safety Management, Regulatory Authorities.

Type of Advice / Information Provided:

Introduction of Chemical Products:

- o Obtaining, preparing and reviewing Safety Data Sheets for Australia and New Zealand.
- o Meeting Chemical Control Schemes. Evaluation of chemical products. Advice on the facilities required.
- o Preparation of chemical safety and management procedures.

Use of Chemical Products:

- o Hazardous Chemicals (Code and Regulations).

Classifying Chemicals / Substances, Preparing Registers.

- o Implementation of chemical / hazardous chemicals management systems.
- o Dangerous Goods (Storage & Handling) Regulations: Manifests, Placarding, Labelling.
- o Community issues about the use of chemicals and removal of unacceptable chemicals.

Sustainable Industry, Waste Minimisation & Disposal of Chemical Products:

- o What does the community want in place to choose, handle and dispose of chemicals properly?

I have 42 years professional experience. To keep my skills current I have strong networks with chemical management specialists and I regularly prepare my "Hazmat & Environment Notes" newsletter to help keep others up to date.

I co-ordinated the industry, professional associations, union and community technical committee to organise the program topics and speakers for the FPAA HazMat Conferences run yearly in Melbourne and Sydney from 2000-2012.
Remained a member of the FPAA HazMat Committee that prepared the Technical Programs for HazMats 2013, 14 & 15.
