Subscription to the "Hazmat & Environment Notes" Newsletter.

Dear colleague,

This is an offer to Subscribe to this newsletter, where you have already have the current issue and now want to have a subscription. Please pass this offer onto the relevant group in your business.

Please complete the Tax Invoice on page 2 for a subscription to Hazmat & Environment Notes from the Aug-Sept-Oct 2025 issue to June-July-Aug 2026 issue. The **Oct-Nov-Dec 2023 issue** (as [print](#) or [screen](#) format), and 22 years of older issues from 2001-2022 are downloadable from www.haztech.com.au, (note that earlier information is no longer available on the web).

My Notes help subscribers to meet obligations to keep current & demonstrate this to their management, customers & auditors. As a technical specialist editor, I minimise their time, finding & reading the information being generated about chemical management issues. "Hazmat & Environment Notes" is an inexpensive double check source of information, so that important issues & resources aren't overlooked.

In particular, I closely follow chemical regulatory changes in Australia and New Zealand for domestic, industrial, agricultural and food chemicals (but not veterinary nor therapeutic chemicals), and I keep alert to relevant overseas regulatory changes we need to be aware of. I ALSO look for information that I see as useful to Classify chemicals correctly, prepare Safety Data Sheets, carry out Risk Assessments, to Train, to Network, to implement Cleaner Production, and to move towards a Sustainable Industry.

I encourage everyone to be involved, as we must network together with our limited resources we have available in our area, in order to appropriately manage chemicals, their effects and their issues.

Please return a copy of the tax invoice renewal form with a Credit Card authorisation, or EFT payment, for the amount appropriate for your subscription.

Please keep a copy of your completed **tax invoice** for your records.
